

🎯 Quick Tip: Tint Overlay Palette

Tints: Pale Yellow Tint (001820-0030), Purple Blue Tint (001948-0030)

Opalescents: Light Peach Cream (000034-0030), White (000113-0030), Driftwood Gray (000132-0030)

And this is just the start — there are so many palette possibilities to explore!

For a semi-matte finish and crisp seams, design with a base layer of Tint glasses and cap with Opalescent styles. To keep the finish, slump with the shelf-side facing up and work with molds that require relatively little heatwork.
